

**INTERNATIONAL ASSOCIATION of MACHINISTS
and AEROSPACE WORKERS**

3917 E. MacARTHUR - WICHITA, KANSAS 67210

June 16, 2015

Dear Brothers and Sisters,

Many of you in attendance at the monthly Local Lodge meeting asked for additional communication from this office with regards to the pending sale of the fabrication and machining areas at Spirit AeroSystems.

The Onex Corporation has reached out to the IAM and expressed their commitment to work together to make this transition happen as smoothly as possible. Onex would like to keep the work here locally, and has expressed a desire to create major job growth in the future. Future plans include building a one million square-foot facility to house the fabrication and machining work and allow for any anticipated expansion.

The IAM will continue to focus on keeping our commitment to our membership which includes regular communication, Wichita jobs and preserving wages and benefits for our IAM members.

In SOLIDARITY,
Frank Molina, DBR
District Lodge 70
